

UNIFIED ENDPOINT SECURITY MANAGEMENT

VELOX®
THINK CYBER SECURITY...THINK VELOX

ABOUT US

- Velox – Leading Cyber Security innovator with 13+ years of experience.
- Headquarters in **Mumbai**, **R&D Center in Pune** and **Global Innovation Center in Chicago, USA**.
- Serving 110+ banks and 500+ corporate clients across various industries.
- Comprehensive Cyber Security Solutions for Banking, Healthcare, Defence, Manufacturing and Industrial Automation.
- Expertise in **IT Infrastructure Security, Control and Monitoring**.
- Certified for ISO 9001:2015, 20000, 22301, 27034, 27001 and PA-DSS. Active member of ATMIA, CATMI, NASSCOM, and the **Indo-American Chamber of Commerce & Industries**.
- Holder of three major Cyber Security innovations - patents in process.

SALIENT FEATURES

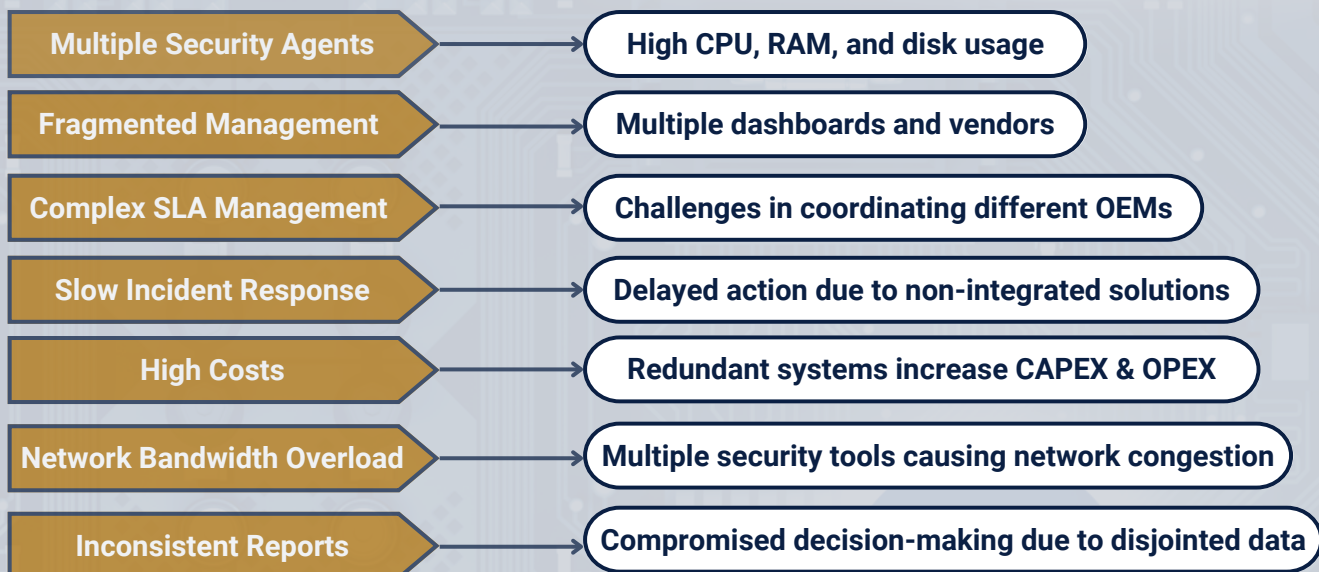

- Velox offers next-generation Cyber Security, AI/ML-driven intelligence, and comprehensive IT infrastructure monitoring and security – all under one unified platform.
- The solution designed to work on less hardware sizing thereby saving the BoM.
- Platform Independent-works on any independent OS Platforms.
- One single dashboard for all the modules.
- Consumes very less resources and bandwidth.
- Highly parameterised thus requires less customisation & support.
- Cost effective - subscription & perpetual licensing model.
- Local Level 24 x 7 Support.
- Remove worries of IT infra monitoring & security by applying proactive centralised controls.

PlanetGuard - Unified Endpoint Security Management (UESM)

Cyber threats are evolving, and traditional security solutions struggle to keep up. Managing multiple security tools, dealing with resource-heavy agents, and handling complex security infrastructures lead to inefficiencies, increased costs and vulnerabilities.

Key Challenges in Endpoint Security

Why PlanetGuard UESM?

One Solution. One Agent. One Dashboard.

- Single Security Agent - Eliminates the need for multiple security tools.
- Unified Dashboard & Role-Based Access – Centralized control and visibility.
- Optimized Resource Consumption – Lower CPU, RAM and Disk Usage.
- Real-Time Reports & Compliance Management – Instant MIS & DSS insights.
- Integrated Threat Detection & Response – AI-driven analytics for proactive security.
- Advanced Threat Intelligence – Predicts and mitigates cyber risks
- Lower Total Cost of Ownership (TCO) – Reduced hardware and operational costs.

Unified Security Features

Endpoint Detection & Response (EDR) Real-time monitoring & threat mitigation	Extended Detection & Response (XDR) Cross-platform security intelligence	Application Control Whitelisting & blacklisting to prevent unauthorized access	Full Hard Disk Encryption (FHDE) Secure encryption to comply with DPDP guidelines	Patch Management Updates for security patches & fixes for OS and applications
Next-Gen Antivirus AI-enhanced malware and zero-day threat detection	File Integrity Monitoring Verifies the authenticity and integrity of the files	IT Asset Management (ITAM) Visibility & control over IT infrastructure	Data Leak Prevention (DLP) Protects sensitive data from breaches	Threat Intelligence Platform (TIP) Predictive analytics for cyber resilience

Innovative Features

- AI-Driven Threat Detection** – Adaptive security powered by artificial intelligence.
- User-Friendly Interface** – Simplified security management.
- Scalable & Flexible** – Supports diverse IT infrastructures.
- Zero Trust Framework** – Continuous authentication & verification.
- Advanced Encryption & Privacy Controls** – Enhanced data protection.

Salient Benefits

- ✓ **One Security Solution** – Eliminates the need for multiple tools.
- ✓ **Hardware Optimization** – Works with minimal system resources.
- ✓ **Multi-OS Compatibility** – Supports Windows, Linux and Unix.
- ✓ **Flexible Deployment** – Available in on-premise & cloud models.
- ✓ **Minimal Customization Required** – Quick and easy integration.
- ✓ **Cost-Effective Licensing** – Subscription & perpetual models available.
- ✓ **24x7 Local Support** – Dedicated round-the-clock assistance.

Industry Use Cases

- **Enterprises IT Security** - Protects data & Endpoints across organizations.
- **Financial & Banking Sector** - Ensure compliance & risk mitigation.
- **Healthcare & Pharma** - Safeguards patient data & regulatory adherence.
- **Manufacturing & Supply Chain** - Secure operational & Industrial IT systems.
- **Government & Defense** - Strengthens national cybersecurity resilience.
- **Retail & E-commerce** - Prevents fraud & secures customer transactions.

Why Choose PlanetGuard UESM?

One Agent for All Security Needs - Eliminates complexity.

Streamlined Security Management - Simplified operations.

AI & Advanced Analytics - Predicts & mitigates cyber threats.

Customizable Dashboards - Tailored security insights.

Scalable & Adaptable - Future-proof cybersecurity.

Lower Total Cost of Ownership (TCO) - High Security, reduced cost.

Visionary Leadership Driving Innovation

Dr. Mangesh Amale, Founder & Managing Director of Velox Solutions, is a cybersecurity leader with over 25 years of expertise. An alumnus of IIT Bombay, IIT Jammu and Washington University, he holds four International Doctoral titles. His leadership has been instrumental in establishing Velox as **India's No. 1** ATM security provider and a top global player. Backed by his vision and **Velox 3.0**, the company continues to develop cutting-edge security solutions for financial institutions worldwide.

Recognized with prestigious **global awards**, Dr. Amale's leadership ensures Velox remains at the forefront of cybersecurity innovation. His commitment to security, innovation and social impact defines Velox's legacy.

Registered Member and Business Award Recipients of below fine Institutions:

Awards & Recognitions

- **Aegis Graham Bell Awards**- Innovation in Cyber Security 2024-2025
- Most Innovative Cyber Security Company of the Year 2024
- **Knowledge Chamber of Commerce and Industry**– Business Excellence Award 2024.
- Most Innovative Cyber Security Company of the year Award 2024
- **Business Excellence** - Cyber Security Award 2022-2023
- **ICT** – Cyber Security Company of The Year 2021-22
- **Silicon India** - 10 Most Promising Cyber Security Solutions Providers, 2020 – 2021
- **Asian-African Chambers of Commerce** - Excellence in Innovation & Technology, 2020 – 2021
- **CIO Tech** - 20 Most promising Cyber Security Solution Provider, 2019 - 2020
- **Business Connect Magazine Award** - Company of the Year ,2018 – 2019
- **CTO Forum** – Best Service Provider in India, 2017-18
- **CIO Review** – Top 20 Most Promising Company, 2017-2018
